I now have a business that I can sell or partner with the next generation.

"I started coaching with Richard Robbins International 12 years ago. At that time, I was earning approximately \$150,000 per year and was working endless hours. ... This changed when I attended an RRI seminar and joined coaching. My career has grown from a single person operation to a team where every member receives coaching. I now have a business that I can sell or partner with the next generation.

My only regret is that I didn't know to start coaching earlier in my career!

Since joining coaching in 2013, not only am I enjoying more income and a balanced life through systems and efficiencies, I have also found incredible value in the RRI Membership. I believe you are the average of the five people you spend the most time with and RRI allows me to spend time with top producing agents. It's crucial to helping me build a strong business and a beautiful life.
